

**4th Annual City of Los Angeles Technology & Education Summit**  
**Wednesday, October 20, 2010**

The summit is designed for CIOs and other IT leaders. Your registration includes full conference access. You will enjoy the conference sessions, the executive luncheon, the peer-to-peer networking, the education, and the exhibits.

You Will Learn from IT Leaders and Subject Matter Experts:

**Randi Levin, Chief Technology Officer**, City of Los Angeles

**Pandora Ovanessian, CIO** formerly with Golden State Foods. Pandora will lead a CIO panel discussion on “Managing the Enterprises.” Topics include Innovation, Security, Outsourcing, and Resource Management.

**Tak Fujii, CIO of The Olson Company**. Tak will speak on “CIO Executive Network, The Non-Profit Organization for CIOs” and its mission to provide scholarships and educational resources for under-served youth seeking higher education and careers in the technology field. CEN = Leaders Shaping Future Leaders. Learn how you can help shape the lives of America’s youth.

**Ty Howard, CIO** formerly with the State of Arizona. Ty will present “Ghostrade,” the online technology exchange and charitable program.

**Rick Bauer, Director of Product Marketing with CompTIA**. Rick will discuss the 12-18 month landscape for cloud computing. In addition to highlighting progress on security, deployment, and information assurance in the cloud, Rick will also present information on the development of much-needed specifications and standards in this technology area.

**Coy Thorpe, Sales Engineer, WatchGuard Technologies**. Coy will talk about “Securing the Now.” The presentation will include a live demonstration of how computers are compromised utilizing a popular, well-known and useful attack, the drive-by download.

**T.M. Ravi, Chief Marketing Officer, Iron Mountain**. T.M. will discuss how to “Leverage the Cloud to Reduce your Total Cost of Managing Information.”

You will enjoy continued educational presentations from:

- **Alcatel-Lucent**
- **Intel**
- **EMC**
- **And More!**
