Erik Laykin - Managing Director, Global Electronic Discovery and Investigations
Janice Lim – VP Information Security, East West Bank
Ken Chow, Ph.D. – President, Cyber Witnesses Inc
Russell Walker – Sr. Director Information Security, SONY Network Entertainment

Please join us in an exciting discussion with a panel of experts on Information Security **/ Chief Security Officers.** As IT professionals (and also as consumers) we need to recognize information security as not just a potential legal problem but also a potential competitive advantage in attracting and keeping customers. The panel will address regulations that govern information security, hardware and software solutions, policies and best practices that help to assure privacy.

ABOUT OUR SPEAKERS

Erik Laykin - Managing Director, Global Electronic Discovery and Investigations
Mr. Laykin is the Managing Director and Co-Chairman of the Duff & Phelps, LLC (NYSE: DUF) Global Electronic Discovery and Investigations practice. He focuses on large scale international corporate investigations and significant high stakes litigation issues in which computer forensics and electronic discovery plays a major role.

A native of Los Angeles, California whom calls Hong Kong his "second home". Mr. Laykin is recognized as an early pioneer in the computer forensic and cyber crime space. He is an internationally accredited testifying expert in cyber-crime, electronic fraud, data breaches, trade secret theft, trademark, patent and systems design infringement / failure, online piracy, corporate espionage, and a variety of other complex information technology disputes. Mr. Laykin and his team have successfully contributed to the resolution of matters valued in the hundreds of millions of dollars on behalf of Fortune 100 companies both domestically and abroad.

Previously, Mr. Laykin was the founding Chair of the Information Technology Investigations practice for Navigant Consulting (NYSE: NCI) where he led investigations throughout the US, EU and Asia. In the mid 1990's Mr. Laykin established OnlineSecurity.com, one of the world's first investigative consulting firms focusing exclusively on I.T Investigations and Computer Forensics and established Hong Kong's first commercial computer forensic lab.

Mr. Laykin regularly comments on technology matters at industry conferences and for the media including CNN, FOX, ABC, NBC, and CBS. He has participated on a number of advisory boards including the California Judicial Council's Subcommittee on Digital Evidence, the California Department of Insurance Anti-Fraud Advisory Task Force and The Electronic Commerce Council. In addition Mr. Laykin is a Fellow of the Academy of Court Appointed Masters and is active with the HTCIA, ISSA, FEWA, American Bar Association and is the past President and Pacific Rim Director of the FBI's Infragard Program

Janice Lim – VP, Information Security at East West Bank.

Janice has over 20 years of experience in information security and information technology audit. She has served as Senior Director for information Security for the California State University system, and has led global information security and IT audit teams for Ernst & Young LLP among others.

She has provided enterprise-wide information security leadership by establishing a collaborative approach to identify information security challenges at various organizations, developing security roadmaps across divisions to resolve security issues, and implementing best practices in security

management. She holds a Master of Science degree from Golden Gate University and a Bachelor of Arts from UCLA. She also holds numerous certifications including: Certified Information Systems Security Professional (CISSP), Information Systems Security Management Professional Concentration (CISSP-ISSMP), Information Systems Security Architecture Professional Concentration (CISSP-ISSAP), Certified Information Systems Auditor (CISA), Certified Information Security Manager (CISM), and Certification Information Privacy Professional (CIPP).

Ken Chow, Ph.D. – President, Cyber Witnesses Inc. / Managing Partner, Compound Profit Los Angeles Region

Dr. Chow is an Information Security Project Expert with over 17 years experience directing cross-functional teams of technical experts to analyze products, network systems, security processes, computer forensic procedures, electronic discovery best practice, open-source intelligence (OSINT), cybercrime investigation, incident response processes, and implementing infrastructure improvements. He is also recognized for leadership in project planning with over 8,000 non-overlapped hours, provisioning, scheduling, prioritization, contingency, IT risk management, computer forensic and electronic discovery projects. He had performed the role of expert witness consultant for many high profile cases, such as TJX, IRS, internal investigation for local government agencies, as well as intellectual property litigations.

Dr. Chow holds Ph.D. in Organization & Management from Capella University, Master of Criminal Justice and Certificate in Paralegal Studies from Boston University, MBA from AIU. He has the following certifications: EnCE, CISSP, CISA, PMP, CEH and a few vendors' certifications. He is currently working on his third Master degree in Information Warfare with American Military University, and Juris Doctor with Northwestern California University School of Law. In the mean time he is also researching on the value of open-source intelligence (OSINT) in commercial InfoSec market.

Russell Walker – Sr. Director Information Security for SONY Network Entertainment International Inc. (SNEI).

SNEI manages and builds the SONY Network platform that host the various SONY online properties which include the Playstation Network, eBooks store to name some. There are in excess of 40 million user of the properties that reside on the network platform.
